The first step is to locate and write down the item's **call number**. A call number acts as a book's address on the shelves. Just as each house on your street has a unique number, so does each book in the Library.

The call numbers group books together on the shelves based upon subject. This means that if you find one good book on your topic, you are likely to find others on the same or similar topics next to that book on the shelves.

The first letter(s) in the call number are **alphabetical**. The Ms come after the Ls, but before the Ps.

The second part of the call number is **numerical**. A book marked P 96 would be found between P 95 and P 97.

Randall Stuart "Randy" Newman (born November 28, 1943) is a singer/songwriter, arranger, composer, and pianist who is notable for his mordant (and often satirical) pop songs and for his many film scores. Newman is noted for his practice of writing lyrics from the perspective of a character far removed from Newman's own biography. For example, the 1972 song "Sail Away" is written as a slave trader's sales pitch to attract slaves, while the narrato... [More](#)
